PCI DSS Scope
Assessments
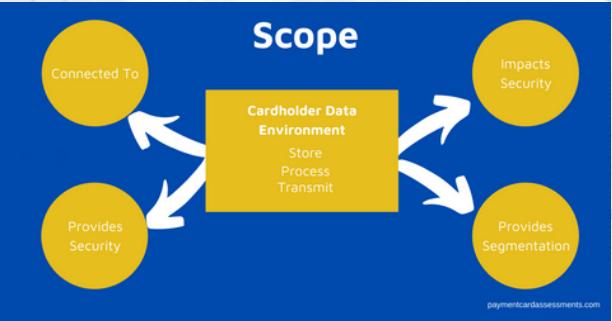

PCI Compliance **&** Sustainability

Payment Card Assessments, LLC

At the beginning of any PCI DSS assessment it's critical that you start with scope. If you don't have a firm grasp on what's in scope for assessment, completing a self-assessment or, if you're a level 1 merchant, a mandatory Report on Compliance is next to impossible.

WE PARTNER WITH YOU

Our experts will teach you how to do a scope assessment. At Payment Card Assessments we will help you understand and know your scope, where and how you begin to create, build, and maintain a continuous PCI DSS Compliance program.

Scope

Connected To

Impacts Security

Cardholder Data Environment
Store
Process
Transmit

Provides Security

Provides Segmentation

paymentcardassessments.com

Understanding what assets, which processes, and who's in scope for PCI Compliance is one of the critical components of a successful PCI Report on Compliance or Self-Assessment.

PCI DSS Gap Assessments

PCI Compliance & Sustainability

Payment Card Assessments, LLC

Our PCI DSS compliance experts at Payment Card Assessments, LLC., will assess your current compliance posture to produce a recommendation plan that you can implement to achieve full compliance with the PCI Data Security Standard.

WE WORK WITH YOU

Through interviews, walk-throughs, process reviews, and documentation reviews, our gap assessment will help your organization pinpoint areas that need to be brought into compliance so that you can successfully achieve your annual PCI Report on Compliance.

Demonstrate Due Diligence

Provide a Defensible Position

Meet the Intent of the PCI DSS Requirement

A gap assessment will help you identify where you stand before you either self-assess or kick off your annual Report on Compliance. We will help determine if a PCI DSS Sustainability Program for you.
